Dear Sir:

Enclosed is a PTO/SB/08 Equivalent listing 104 references, of which 29 are submitted for consideration by the Examiner.

As mentioned in an Information Disclosure Statement filed on November 23, 2010, Applicant would also like to bring to the Examiner's attention U.S. Patent App. No. 12/940,788, which claims priority to and which is a continuation of the present application, filed on November 5, 2010. In a Preliminary Amendment dated November 8, 2010, Applicant notified that application's Examiner pursuant to MPEP § 2001.06(d) and 35 U.S.C. § 135(b) to consider whether certain claims filed therein are directed to the same or substantially the same subject matter as the claims of U.S. Patent No. 7,615,036, issued on November 10, 2009. In an abundance of caution, Applicants are citing the references identified in U.S. Patent No. 7,615,036 for the Examiner to consider whether they may be relevant to the related present application's claims. Applicants note that some of these references may have already been submitted to the Examiner in previous Information Disclosure Statements.

Applicants note that U.S. Patent No. 7,779,625, issued August 24, 2010, is a related continuation-in-part to U.S. Patent No. 7,615,036. Further, a divisional application, U.S. Patent
